

# ECO-FRIENDLY TABLEWARES

PLATES & CLAMSHELL  
BY AURA ECO GREEN LLP

# ABOUT US

At Global Green, we believe that small choices lead to significant changes. Our mission is to provide sustainable solutions through biodegradable tableware, helping to reduce our carbon footprint and protect the planet.

Crafted from calcium carbonate, a mineral found naturally, our compostable plates and containers combine durability with eco-conscious design. Free from toxins and chlorine, they offer a safe and responsible way to enjoy every meal.

But we're more than just a brand - we're a commitment to sustainability. Replacing harmful materials with eco-friendly alternatives makes it easier for everyone to embrace a greener lifestyle.

With every product, we take a step towards a more sustainable future - one thoughtful choice at a time. Join us in making convenience and sustainability go hand in hand, leaving a cleaner, healthier world for future generations.

# A STORY OF CHANGE

## One Plate at a Time

Can convenience and sustainability coexist? Our founders saw the plastic waste crisis and sought a better way. That's how Global Green was born - not just as a brand, but as a movement.

Inspired by nature, we use calcium carbonate, a renewable material, to create compostable, toxin-free tableware that's strong, sustainable, and guilt-free. From day one, we've been committed to redefining disposables - no plastic, no waste, just responsibility.

With every plate and container, we offer a smarter choice for businesses, consumers, and the planet. Sustainability isn't a trend - it's the future.

And that future starts with you.

# SAFE, SUSTAINABLE, AND SMART

At Global Green,  
we Don't just Make Tableware  
**-we make a difference.**

- 100% Natural, Zero Microplastics:  
Safe for you, safe for the planet.
- No Toxic Chemicals, No Bleaching Agents:  
Just pure, clean dining.
- Backyard Compostable: Breaks down naturally,  
so no special facilities are needed.
- State-of-the-Art Sustainability: Designed with  
energy conservation, waste management,  
and strict hygiene in mind

With every plate and container, we're shaping a  
greener future. Ready to make the switch?

## WHY CHOOSE **GLOBAL GREEN**

### 01 Leak-Proof & Mess-Free:

No more spills or soggy meals! Our expertly designed tableware keeps oil and water exactly where they belong – on your plate, not your lap.

### 03 Pure Taste, No Aroma Migration:

Your food should taste like your food – not your plate. Our tableware locks in flavours without interfering with the dining experience.

### 05 Handles Heat & Cold Like a Pro:

Microwave or freezer, our tableware stands strong from +120°C to -10°C, ensuring reliability no matter what's on the menu.

### 02 Strong Yet Lightweight:

Built tough yet easy to handle. Our tableware offers the perfect balance of sturdiness and convenience, so you never have to compromise.

### 04 Made from Renewable Plant Fibers:

Sustainability starts here. Crafted from renewable plant-based materials, our products help reduce waste without sacrificing performance.

### 06 Compostable & Earth-Friendly:

Let nature do the rest when you're done. Our tableware breaks down naturally, leaving only nutrients for the soil.
